

May 1, 2011

InterVisual Technology, Ft. Lauderdale, FL, is pleased to announce that Kinny J. Griffith, Denver, CO, has joined the company's leadership team as its Interim Chief Executive Officer (CEO). Kinny is a seasoned leader in both traditional and virtual education. He has an MBA and is a former CPA with business and industry experience, first venturing into education to lead a public charter school in 1994 to benefit his own daughters. He has led multiple virtual schools since 2001, both domestically and internationally. He opened one of the first two schools for K12 Inc. (LRN) in 2001, and continued in various leadership positions within K12 over the next six years during which it grew from 1,000 to over 50,000 students.

InterVisual Technology, Ft. Lauderdale, FL, offers a complete line of educational web based platforms and delivery systems for running a virtual school, including its *iStudy LMS*[™] an online Learning Management System along with over 200 courses for secondary schools. InterVisual was founded by Dana Delane who earned her Masters' Degree in Business Administration with a minor in Computer Information Systems. She has been an educator for over 18 years, including as an Assistant Professor with the University of Kentucky, and has formed a dedicated staff committed to serving students.

American High School, a division of InterVisual, is a private virtual school using InterVisual platforms and courses and is accredited by AdvancED, a recognized U.S. Department of Education Accrediting Agency.

InterVisual recently became the first fully accredited private online school to offer a monthly subscription based model. Through VirtualEDU another InterVisual company, the requirement of an up-front investment by students and families has been eliminated. Students are able to

begin attending classes the same day they enroll, paying tuition as low as only \$49 per month. VirtualEDU has made online learning accessible and affordable to a much larger segment of the world's population.

InterVisual has licensed its technology to both public and private K-12 schools with students across the USA and around the world. In addition to the licenses, offers a variety of services including turnkey services for an investor or entrepreneur to open a new virtual school from scratch in just a few weeks, and is continuing to expand its adult Career Academy courses. Recently, InterVisual began offering their products and services to public schools and school districts.
